Wait time and natural pauses including wedding speeches, catering, cake cutting, and delays are **not covered** and will naturally eat into your booking time/duration. The booking time/duration confirms how long the magician will be **present** for and **not** how long the magician will be performing for, due to this we recommend factoring in the performance time required plus natural pauses that take place in between (speeches, cake cutting, etc). The magician will perform for as long as you like until the timeframe is complete.

Travel expenses within Leeds are already covered within the package, for any other location, please enquire.
